

The Significance of the Trials of the Perpetrators of the Armenian Genocide

**A lecture by
PROF. VAHAKN N. DADRIAN**

The post-World War I Ottoman Special Military Tribunal showed clearly, in a legal setting, the genocidal intent of the Young Turk leaders perpetrated against their Armenian citizens. Prof. Dadrian will present his analysis and the significance of the trials. The new book, *Judgment at Istanbul: The Armenian Genocide Trials*, the first on the Armenian Genocide jointly written by an Armenian and a Turkish scholar, will be on sale at a specially reduced price, and the author will be pleased to sign copies.

Eleven years in the making, *Judgment at Istanbul* marks the first time the complete known documentation of the trial proceedings is being provided in English. The study is based on authentic Turkish documentation, which the Ottoman government was forced to release during the trials. It includes the personal, eyewitness testimony of high-ranking Ottoman officials, given under oath, on the magnitude of the crimes against the Armenians.
