Dear Herr!

I am acknowledging receipt of your last letter you quote any addresses by which one could order the lions of k. Maras

Turkey has invaded $\frac{1}{2}$ invaded Cyprus's $\frac{1}{2}$ and will invade the rest in order not providing shelter to Greece Englishmen has pented in the past and the time has already elapsed. But the innocent country-men are killed by Greece's soldiers here and there. One can see how cruel they are. As you know too Gures are peace full peoples! They are working only as country-men and never imagine themselves for making weapons to kill men yet the mankind don't see his qualification. They are 'despit the fact very well warriors they are equipfull with

My dear Keri!

How are you? I hope that will be able to communicate with you still many years to come. I like you at such a ~~place~~ degree, if I could see you in the U.S. (or here) once lively then the death could be welcome. Long only I have not transmitted you my debt of \$15. But am sure that I will achieve this end.

If it would happen that I should die without seeing you I would have shared the unhappiest death. One can feel what you are like. English men is our No. 1 foe. the rest are all our friends including the Grees. Wait till we will be able to punish them for thire acts they used since centuries ago. We had war not against Grees or no we led it against englishmen and have already crouched them God save the American peoples.

I would be happy if I were about to help, see

Dear Ken!

Well, I sold "The Lion of H. Nbaras" for the same price
to a cook and am going to prepar myself to transmit
the amount to you. You! But I encounter difficulties to do this
I wrote to U.S.A.'s Embassy in Ankara in order for his help
he had ^{the} not agreed stating I he don't involving such affairs.
But I think, if I order a traveler, ~~whom~~ who will be in H. Nbar
as to transmit you the amount by giving him in cash it will
do. But one must be careful to not be cheated, he who
gets the amount must be honest. Your book "The Lions of

I acknowledge receipt your last mail about
Kohutek. These days I will rise early in order searching
for it. About lions of M. Karas. A friend of who ordered from
New York was didn't yet got. Specially they send surface
mail. Please report them that such orders must be carried
out quickly. I will encourage peoples for the purpose of sale. Be
quite please we will think how to achieve this fact. Please don't
appoint me as agent in M. Karas because Turkish authorities may not
like the book so it can cause me trouble like you suggest too. We will
see what we have to do in order selling them in great number.
Here there are many students who speak English they will interest

Dear Prof. Herz!

The poor Armenians have ensured their fatalities
 they selves because they thought the turks were not strong
 enough to resist English and French invaders. They had to
 think that no societies could be able to invade Turkey
 It is a shame for English and French men who had invaded
 Turkey because turks were faible to say they had no weapons
 If any who has weapons can attack the who has no
 weapons. Then exist no human right among peoples and
 who doesn't obey this rule is a ^{trone} wilder. We respect American
 coins for they take peace - lower, else they can protest every
 society if they had the badness with Englishmen has But Turkey
 will be able in close future give an end to his rule
 and punish him accordingly We are aware that he weaponed
 the grecs during the world-war 1. in order invading West of
 Turkey, besides he too invaded Arabia unrightly also during
 the same periode. Chote: decline begun for turks and
 Arabs. Israel will be annihilate at final by turks. Your writing
 "the lions of H. Karas" suits them in noble senses

You are very diligent You have - my heart
on account of your extraordinary goodness. But Americans
in great rate like you good hearted. I am grateful to you on
account of your assistance to the Armenian orphans. The religion
Islam is over all other religion on account of its modernities.

there is another danger Red-china

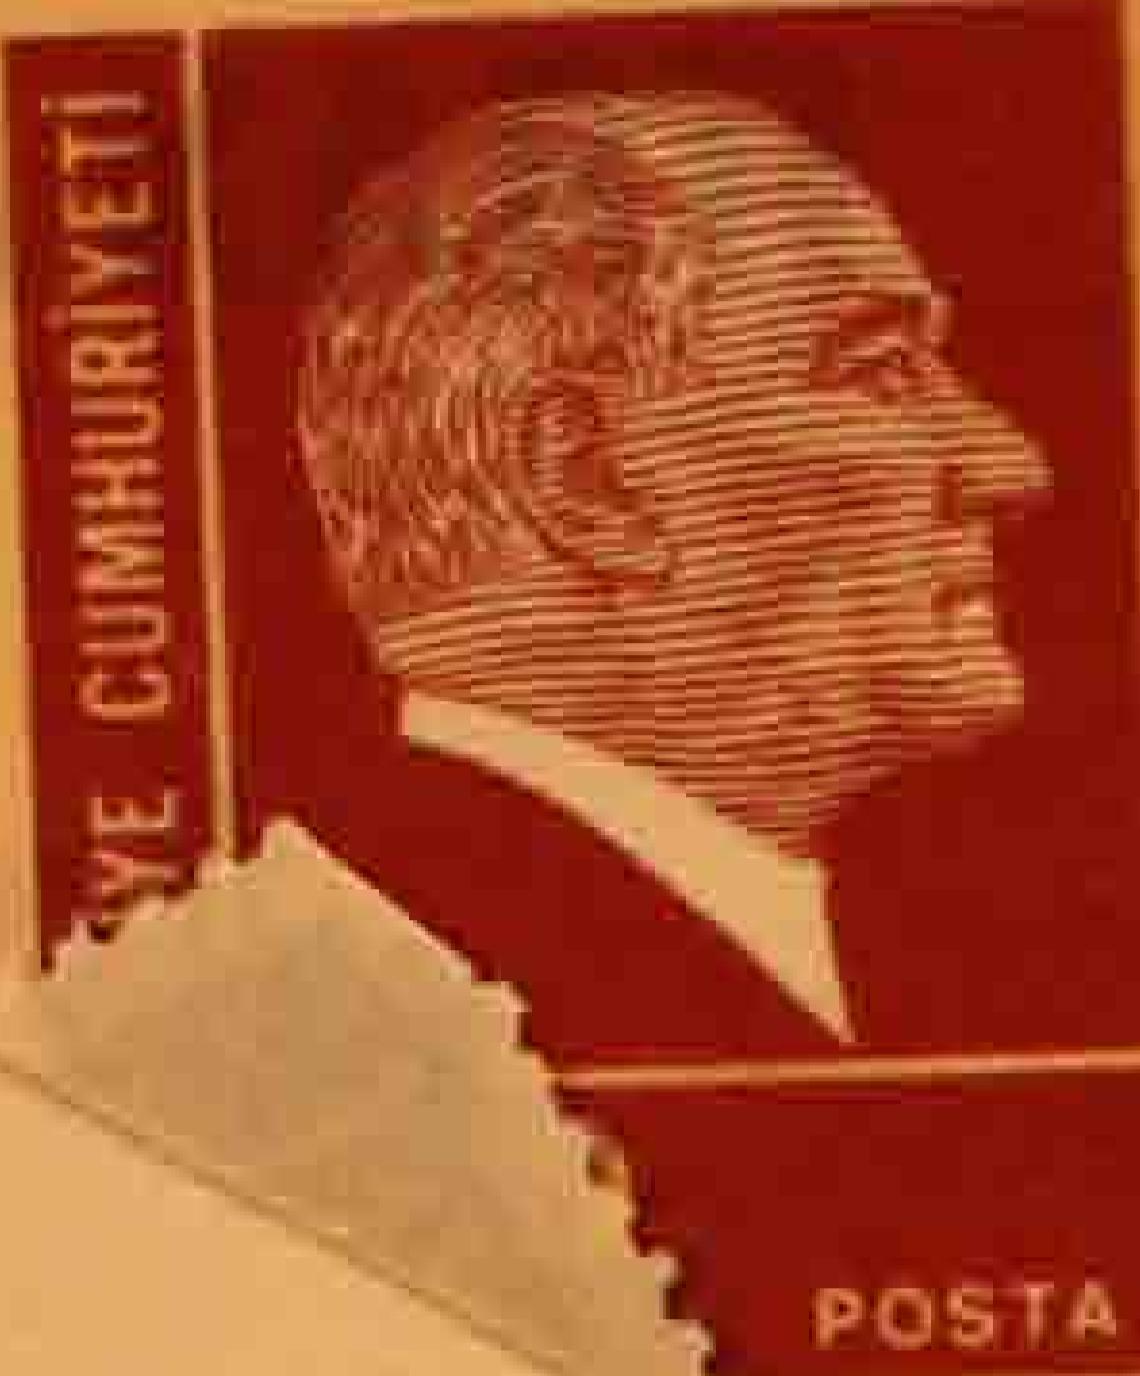

the Iron Islam do's wether men nor animal harms. he doesn't steal
drinks no drinkemes with ~~poor~~ contains alcohol because he who
drinks such a poison (= french) loses his thinkings and does harms
by which arises irreparable damages. The turks at that time were
different from that today. they killed them because they wouldn't
accept the religion Islam. At same time the Armenians
were equally wild. 2 wilds can't join. But if 1 of them is witty then
the state changes. they dared not act against turks from whom
they got centuries always help. they dared not believe English french
even Americans. Because they are far away from Turkey those they will
be not able assist them in at imminent danger. Truly it has hapened
so. If hapened U.S. accepted mandate they equally could not holding long
Turkey could then overgain Cilicia. At close future Arabia will be occupied
& would be by Turkey. Even U.S. will be not able resisting. But

The figure set before Maras (= K. Maras) means
super courage because K. Maras's population during
world-war 1. defeated the French English and French inva-
ders though they had no regular army and weapons. This
for deserved it to be called K. Maras (= Kahraman maras)
In the yellow brochure noticed: If the U.S.A. hadn't refused
his mandate over independent Armenian state in Paris
peace conference M&K would stay in Cilicia. But how long

There is a fantastic belief in religion Islam. If a man at

deserved to be called ~~with~~ by *gazi* before any years, Marasaise
~~have~~ claimed to be called also with a glorious name. The word
gazi couldn't annex both Anteb and Maras at same time.

Marasaise claimed to be called by another word with suits
for their glorious deeds against Frenchmen. The government
agreed to be called *hiterto Kahreman Maras*. The word ~~Kahre~~ *Kahre*
may mean [(courageous) or super courageous]

Please write *hiterto* always H. Maras. The both word:

Dear Kerr!

Turcs also led a more better life than New York since
though they go by feet instead of going with airplane which
occurs to New York since they eat all foods naturally the air
water is not polluted. Man is healthier than whom of west
In this you agree with me for you are a very clever man. In view
of the Armenian's fact I agree with you in this but the Armenians
were also murdered because if the world they had to reverse to
Mohammed then they could live in peace. As you know all
religions teaches the welfare to human beings. It stands glorious
to me. Give you for magazines as well as for book which is on route
The modern civilization doesn't destroy the nature but the
man himself. Peoples must return to life that Indians had used
to live. Hunting must be forbidden to all animal's species. It must
be founded a U.S. world government. It must be realized "Your home
my home is our home". Why does only man be shot? Why?
Has the nature (or god) created him not? is wrong too. I
have to express you many interesting ideas but today I
leave wishing you success.

As I wrote you in the past, if the poor Armenians were
witty peoples first they had concluded them selves to invert thire
faith (Christianity) to Islam, which is not inferiour
than Christianity even better than that

Your true friend

Secondly: they had to foresee that Turks are so strong, that
it is impossible annihilating them. Besides, Armenians were
at that time in proportion more educated peoples than Turks
therefor they cheated easily, Turks which led them to be the
regions masters. They had led a very easy life. It is always
yes so, as well as individuals as a nation if they get finances
at top they can't behavior them selves to maintain that state
this is a natural law nobody can escape of it except U.S. who
is a society of greater civilisation. This law occurred to Germany
to Turkey etc. U.S. tries not getting fortunes with sword in contrast
they try to get it by penholder (= pen) yet they earn more
money. I found a true friend in Princeton, U.S.A.

My dear Professor!

You are very diligent for your actions proves it
 If it happens that I can migrate to U.S. I will call
 you. I resolved to live the rest of my life in U.S. where one
 reached the last civilization's step. We wrote here in news-
 paper that an Armenian had killed a Turkish embassy and his
 residence. One can see that they ~~are~~ haven't lost their wild
 character for an individual has no responsibility about political
 happenings. If it were so, then Turks have to go to London and
 Paris and had to kill every one whom he meets. One could
 understand if he would try killing the men who have ordered
 Armenian's annihilation. In Turkey's ~~annihilation~~ wasn't not
 annihilation but ~~re-resident~~ was the order. They had leave
 Anatolia and resid in Libya or Turkey's another part though that
 was unjustness. The main fault lies on Armenians because they
 haven't thought never about inverting of their faith. Any of them
 became Islam they live like Turks still both enjoying the same
 right. The order among peoples will not be established unless they
 are joined under a flag. They have to establish a world gover

At that time there were many clever peoples who haven't
consecrated with dealings that was carried out against 'Haras's
Armenian peoples but they were few in proportion to to them, therefor
they effectless. ^{cruel} Kuran suggests being against evrymen who is
at other faith than Islam, always I kind. This is a natural fact
being swallowed from strong one. You have seen Turkey would inva-

Armenians were in nwright. Why? I will explain you Turkey can't be
annihilated by no means by other peoples, because on one hand they are
over 17 mill. On the other hand they are tough warriors Armenians tough
English and Frenchmen could annihilate Turkey such thinking were wrong
Instead they had to stuck with Turks brotherly resisting al foreign invaders
then they could be awarded. They had even a live very easy.
Turks were their servants they were master. But if one has to easy

I heartily thank to your 9 children on account that
gentiles because they refuse to eat meat because they believe
that they have no right to kill them. that is right. By time will
think all men so. But when? Your book will be sold in large number
for it is very interesting. Here we couldn't write on same species
as you have done. The Turks had the Armenians because they
would stick to christianism which was didn't delight Turks therefore
they intended to annihilate them. If they were worthy they invited their
faith to Islam and by time their they could be as a like Turks. Also it is
their own fault for their exodus. But they were treated inhumanly
this is other fact. A man ordered from Albany other would order too,
but he would first have to think for. Is there close to you no Armenian
who originates from K. Karas, if yes then write me please his address.

My dear Prof.!

I wish you (your familie and the Armenians who live close to you) happy Christmas. The poor Armenians fought at that time wrong. They didn't fight for other peoples and had stand at Turcs' side. Besides they had to invert thaire faith to Islam. But they were n't really enough to think so. The muslims at that time fought! if I isn't Islam, he hasn't right to live as with them together. They must accept either Islam or must be crushed. Such a thinking was naturally barbarism but they weren't able to think in right way. In front of such a state the Armenians must be clever and abolish christianism during the many centuries (Or milons of years) the men at his mind crushed each other. All this are done knowingly. But in the 20th century one became clever and knows that religions are all the same but Islam is more perfect. Because as long as the Islam had carried out fundamentally the individu lived like king.
